

## 2018 Director's Message to Hartstone Guests:

Hello Friends of Hartstone,

God protected us from the fires this past fall. Even though the flames came down onto the property, Cal Fire was able to protect all our structures. The windstorm which caused all the fires did a pretty intense job on the campground too. We had 6 large trees come down causing damage to a few cabins and decks but thankfully the damage wasn't as bad as it could have been. We are excited to announce that we have begun the final phase of the Chapel Project. We have completed the first 2 phases debt free and would like to do the same for this final phase. We estimate the cost to be \$250,000. Would you consider making a financial contribution to this wonderful addition to Hartstone.

Not to us,

Dave Dick, Director
